

# DIS40

---

DIS40 Stuttgart Event:

## **LEGAL TECH: only for tech geeks or future of dispute resolution?**

on **27 April 2017, 17:30 – 20:00**,

at Haver & Mailänder, Lenzhalde 83, 70192 Stuttgart.

“Legal tech” recently appeared as a new trend challenging traditional roles and business models in the legal world. We want to discuss what legal tech means, how this trend possibly affects the area of dispute resolution and what changes and opportunities this may involve for lawyers, clients and institutions. We have invited interesting panellists with different backgrounds from legal start-ups, arbitration institutions and law firms to share their views and experiences. The discussion will be followed by a reception with drinks and appetizers.

Panellists: Michael Grupp (co-founder of Lexalgo and Thesius)

Suvi Lappalainen (DIS case manager)

Sebastian Müller (King & Spalding)

Moderator: Roland Kläger (Haver & Mailänder)

Please send your **registration until 20 April 2017** to Tanja Nagel ([tn@haver-mailaender.de](mailto:tn@haver-mailaender.de)).

Roland Kläger

DIS40 Regional Coordinator Stuttgart
